held on the fourth Thursday in May, are to have the privilege of ratifying or rejecting this ionary arrangement of secession. The revolutionists expect to carry it, as they have carried the State Convention, by the sheer force of terrorism. But let the armies of the United States, meantime, move upon Richmond and occupy it, and from that point let the General in occupation, under the authority of the President of the United States, issue a proclamation guaranteeing full protection to the freedom of the elective franchise, and a proper punishment to all offenders against this right, and we predict that the people of Virginia will overthrow all these secession contrivances and stick to the Union. Give them a chance; for thus the Old Dominion may be saved, in spite of the folly of her revolutionary mob, mainly composed of men who have little or nothing themselves to lose in hurrying her headlong to destruction

OUR DANGERS FROM SOUTHERN PIRATES-LET US HAVE AN EFFICIENT BLOCKADE. The general government set up by the revolted States has resolved upon letters of marque and from Virginia to New Orleans the rebels are preparing numerous vessels, steamers and sailing craft, to play the role of piracy against the commerce of the United States along our Southern Atlantic seaboard and in the Guif o' Mexico. Thus, at Richmond, the two fine seagoing steamers Yorktown and Jamestown have been seized, and are being fitted up for piratical purposes. The steamer Nashville, at Charleston, and the unfortunate steamers Star of the West and Habana, at New Orleans, are undergoing the same transformation, from peaceable passenger ships into prowling Algerines. Then there are several revenue cutters seized by the Confederates, and all sorts of sailing craft ready or in course of preparation for the same service. The Confederate Congress reassembled at Montgomery, Alabama, vesterday, and its first business, no doubt, will be to give to this system of piracy the forms of Our government at Washington, and each of

the loyal States of the Union, and our mercantile, ship building and ship sailing interests, should, therefore, co-operate promptly and liberally to secure an efficient blockade of every Southern port, bay creek, river or inlet, from the outlet of Chesapeake Bay to the mouth of the Rio Grande, in order to prevent means and munitions of war from going into the revolted States by sea, and in order to prevent their pirates from coming out. From the scores and hundreds of skilful Southern officers, late of the United States Navy, who have resigned, and who have thus cast themselves loose upon the world, the Montgomery government will be able to find competent officers for their piratical ships, and the surest way to prevent their contemplated robberies on the sea is to lock them up under an efficient blockade. Our Board of Underwriters have taken this subject into consideration, and our Chamber of Commerce would do well to proceed at once to some active volunteer assistance to our government in this mat-

a good deal of uncertainty and some anxiety about the mode in which the families of the soldiers of the militia and volunteer companies are to be sustained out of the volunteer funds, during the absence of the men. Money has been, and no doubt will be, liberally contributed for this purpose; but some place should be promulgated by which such of the wives and children of the absent soldiers as may need support, can be regularly supplied with funds. It may be that but a few of our gallant volunteers leave their families wholly unprovided for; but it great consolation to those who ber to do so to know that the dear ones they leave behind them will be taken care of, and their wants supplied with absolute certainty and as little inconvenience as possible.

Would it not be well to organize a General Distributing Committee for this purpose, with branch offices located in different districts of the city? The Colonel of every regiment might leave a copy of his roll with this committee before his departure, and the families of such soldiers as may need support could thus obtain a regular weekly or monthly allowance upon application at the pay office of their district. Or, in cases where funds have been raised for particular regiments, the same plan might be carried out But we think it is important that before any more troops leave the city some specific mode of distributing the funds for the maintenance of the families of the volunteers should be decided upon and publicly appounced.

THOSE TWENTY DAYS' GRACE NEARLY EX-PURED - In President Lincoln's war proclamation, "done at the city of Washington, on the diteenth day of April." the following important passage occurs:-

If the many proper to say that the first service assigned to the forces hereby called forth will probably be to represent the forts, places and property which have been exized from the Union; and in every event the union state will be observed, consistently with the objects aforessic, to avoid any decreatation, any destruction of or interference with property, or any disturbance of peaceful citizens in any part of the country; and I hereby command the persons of my stay the combinations aforessid to dispense and retire peaceably to their respective apodes within twenty days from this date.

The "combinations" here referred to are the hostile combinations in the revolted States against the laws and authority of the United States. These 'combinations' are warned to disperse within twenty days from the notice given, a term of grace which will expire on the 5th of May. The defensive policy of the government ceases after that day; so that within the next few days we may expect to hear tha General Scott has adopted the offensive system, and has set in motion some twenty or thirty thousand men for the occupation of Richmond or Baltimore. This is the meaning of those

"EXECRABLE NEW YORK."-Under this sug gestive caption, we publish from the Richmond (Va.). Despatch a very ferocious editorial of that ferocious little secession organ. We dare say that New York will survive it; and it is quite possible that our Seventh regiment may comply with the invitation to visit Richmond again coner than they are expected. We predict,

twenty days' notice.

o, in this eyent, that from the people of Richid, even as enemies, the men of the Seventh. their gallantry, bravery and magnanimity, servave such a reception as they will de restoThey rush to save Virginia and to of our to the Union. The great mistake that ithern revolutionary brethren was Union, taling to war, to break up the a divided uld have a united South against that delusie New York city dissipates that tells the story.

WASHINGTON NOT INTENDED TO BE ATTACK PD.—It is now said that the secessionists never intended to make an attack on Washington. But does any one believe that the men who seized the forts, and arsenals and money of the government ever hesitated about seizing the federal capital, the archives and property of the nation, if they were able? They did undoubtedly mean to take possession of Washington if they were strong enough, and, moreover, they still intend to do it if they can. It is for this purpose that they are concentrating troops in Northern Virginia, and they captured Har per's Ferry with the design of moving from that point by the railroad to Baltimore, of which road they hold possession, and thus making Baltimore the basis of operations, and they mean to try it vet.

This piece of strategy, therefore, shows how important it is for the government to take possession of Baltimore, and to hold all Maryland in subjection with their troops, and, if needs be, to push the war on to Richmond, and regain possession of Harper's Ferry and the Norfolk Navy Yard, and this, too, promptly and vigorously. The assertion that no attack upon Washington ever was or is now intended by the rebel army is a mere pretence to cover their designs.

Lord Woodshouse said that the government was engaged in no regotiations whatever, their policy being not to interfere in Roman Catbolic questions.

In the House of Commons, Lord John Russell stated that the British Consul General of Japan, and the other foreign ministers, with the exception of the American Consul, had left Jeddo to be protected by shige of war, in consequences of an intimation having been used to

in consequence of an intimation having been used wards them, which the Japanese government had not endeavored to check.

The London Timer editorially reiterates hopes for the maintenance of peace, and thinks it is still possible that the warlike intentions of President Lincoln may not be carried out into civil war. One of its articles concludes follows:

the warlike mientions of President Lincoln may not be carried out into civil war. One of its articles concludes as follows:

We would rather hope that the good sense of the Americans and the peaceful coursels of this country may bring about a reconciliation before the dispute has been too far carried. As long as the two sections of the Union refrain from hostilises, it would be the height of arregance and folly to interfere; but when the soil and seas of the New World are likely to be attained with blood, foreign nations may surely remonstrate in the cause of bumanity.

The Faris correspondent of the Dath News says that Russia his informed France that in consequence of the events at Warsaw, it will be impossible to join the French in any measure for the settlement of the fastern question. The alleged reason of this is that Russia regards France as an accomplice in the Petial disturbances.

Mr. Gladstone's budget shows the expenditure of the past year to be over £800,000 less than estimated the expenditures of heat year is estimated at sixty-nine million nine bundred thousand pounds, and the receiping at exventy-one million chair light of the past year to be reduced from the last of histories over £150 is to be reduced from 10. to 9a; incomes and the receiping at exventy-one million of one in the long of the past year. The other provisions are unimportant. The Budget was generally satisfactory.

A report that President Liz coln was dead was extensively circulated in England.

American news is anxiously loc ved for.

Garibaid had taken his seat in the Rettian Parliament, and business was temporarily suspended by applause. The action of the Ministry in disbanding the Southern army and the measures taken for its reorganizat for word debated. Garibaid made a speech so violent that it excited tumult in the Chamber. He made offensive a tiusions to the Ministry, spainst which Count Cavour protested. The President of the Chamber put on his hat, and sitting was suspended for a brief interval. Garibaid: In resuming, spoke with more moderation. He defended his conrades in arms, and said the formation of three divisions of volunteers, as decreed, was not sufficient for the nationed armament. General Bixis made a conciliatory speech.

Count Cavour and he accepted the mode of conditation. Garibaid: explained the several facts alleded to by Count Cavour, and expressed his belief that Count Cavour loved Italy. He designated the French army as the one-my of Italy, because it occupied Rome.

On the 19th Garibaid was again received in the Chamber with hood applause.

Steamship Bremen Ashore.

The above named vessel, from Bremen and Sautham ton, went ashore, while under the charge of a pile shortly after nine o'clock, on Sunday evening A strong breeze was blowing at the Notwithstanding this, the shock was not con-sidered severe when it struck, and it did not cause any serious damage. At an early hour yeaterday morning intelligence of the steamer's situation was received in this city, causing a momentary, unnecessary alarm for its safety. At about ten o'circk A. M., Collector Barney despatched the steamer Mercury, Captain J. C. Lowber, to the assistance of the Bremen, the former reaching the latter about eleven o'clock. After consider able difficulty, owing to the force of the wind and the roughness of the sea, four revenue officers succeeded swinging themselves from the bow of the Mercary swinging themselves from the bow of the mercary into the gangway of the Bremen. The Captain of the latter declined the proffered assistance from the Collector, through his represent-sities, but stated he thanked Mr. Barney all the same. At half-past four o'glock yesterday afternoon the steamer Only Son reached this city, and successfully landed the Be myn's cabin passengers and mass. In about an hour after ward, the remaining portion of the passengers were landed safely at Castle Garden. Just previous to this the teaming Achilles left with several lighters, to assist of its cargo. The Bremen had on board 459 passenge

It was considently believed that the Bremen would b safely floated off about one o'clock this morning. Its bow was well aground when last heard from, while the stem seemed to be perfectly free from obstruction.

FINANCIAL AND COMMERCIAL

MONDAY, April 29-6 P. M. The bank statement of to-day compares as follows with that of last week:-

Nack End g. Lone. Specie Circulation. Deposits
April 20., \$124,701,259 40 620,270 8 826,057 97 304 708
April 27., 124,817,164 38,921,688 8,840,476 96,788,789

The decline in specie is larger than was expected, as the banks received nearly a million from California during the week, and the Sub-Treasury has not gained money. The impression prevails that Southern depositors are drawing out their money in coin, and shipping it, by some means or other, to the South. The District Attorney should look to it. The banks of New York will pay all drafts drawn by parties who have balances here to their credit; after the money is out of their hands it is the District Attorney's province to act. In

the leans and deposits there is no change to notice. The money market is very dull, but rates are higher. Seven per cent is now the minimum rate for the best paper, no matter how short. Many names which were current a few days ago will no pass now. Failures continue to occur both in the dry goods and in the grocery trade, and capitalists operate with great caution. Southern debtors announce their fixed determination to pay no Northern debts so long as the war lasts.

Foreign exchange is very dull. Bankers ask 1051/2 for their sterling bills, but there is no de. mand. A few bills were sold at 105 for sterling, and some france were placed at 5.37%. The market looked quite heavy to-day.

Stocks improved this morning on the intelligence of the safety of Washington, and the probable return of Maryland to common sense. Strange to say, the border slave State stocks were all better; Virginias rose 7; Tennessees, 8; Missouris, 4; North Carolinas, 6. The business at the advance was moderate. A motion was introduced in the Board to strike from the list the stocks of all the States proclaimed to be in rebellion. It was negatived, on the ground that the daily registration in the stock sales of low quotations for these which was not without usefulness. Some day our people will discover that they have been duped in the matter of these border State stocks. They are absolutely worthless. In a few days the West will begin to pour them into our market from the banks. At the first board this morning Central rose 1/4; Erie, 1/4; Hudson, 1/4; Reading, 1/4; Panama, 1; Michigan , 1; guaranteed, 1/4; Illinois Central, 1/4; Toledo, 14; Rock Island, 1. Between the boards prices fell off a fraction; in the afternoon the market was dull, closing weak. Governments were a fraction better to-day. A vigorous blow struck by President Lincoln at the rebels would improve the price of federal securities; they decline on the apprehension that some settlement or compromise may be made which will demoralize the country, and prove the ruin of our national existence. The following were the last quotations to-day:-United States 5's, 1874, 75 a 7614; Tennessee 6's 50 a 50; Virginia 6's, 461/4 a 47; Missouri 6's, 40 a 40; Canton, 8 a 9; Cumberland Coal preferred, 5 a 6; Delaware and Hudson Canal, 82 a 83; Pennsylvania Coal, 72 a 73: Pacific Mail Steam-hip, 683, a 69; New York Central, 72% a 72%; Erie, 20% s 21; Hudson River, 361/2 a 37; Hariem, 121/2 a 123/4; do. preferred, 32 a 321/4; Reading, 31% a 32; Michi gan Central, 441/4 a 45; Michigan Southern and Northern Indiana, 131/4 a 131/4; do. guaranteed, 283 a 2934: Panama, 101 a 103; Illinois Central, 58% a 58%; Galena and Chicago, 57% a 57%; Cleveland and Toledo, 23% a 24; Chicago and Hock Island, 371/4 a 37%; Chicago, Burlington and Quincy, 56 a 59; Milwaukee and Mississippi, 91/4 a

9%; La Crosse and Milwaukee land grant, 5 a 9; llinois Central bonds, 89 a 91. The business of the Sub-Treasury was as follow to-day :-

The Booth Cotton Mills, of Massachusetts. have declared a dividend of two per cent, payable May 1; the Bank of Montreal, a semiannual dividend of four per cent, payable June 1. It is understood that the managers of the Erie

road contemplate making an assessment of \$2.50 per share on the stock, and an equal amount on the unsecured bonds of the company, for the purpose of paying the back interest on the mortgage bonds.

We beg to draw attention to an advertisement in another column respecting coupons of the bonds of the Buffalo and New York City Railroad. The Chicago Tribune of Thursday night says:

The Chicago Tribune of Thursday night says:—
The Straits are at last open. Two Chicago propellers
passed Detroit this morning. But in spite of this important fact, the news from the New York Stock Board
had a depressing influence on the money market, and exchange was irmer. Bankers solv very sparingly to customers at 15 per cept premium, but 17 per cent was
paid outside in some cases. The buying price was 14 a
15. The money market, like everything clee, is very unsettled, and nobody can predict what the next hour will
bring forth. Gold nominal, buying 15 per cent; seliing 20.

The New Orleans Picayune of Monday night 88 YH:--

The amount of business transacted to-day was very The amount of business transacted to day was very inalgolifocati, and in some departments there was hardly the
appearance of a trade. The discount brokers only report
casual sales of paper at 12 per cont for atricity choice.
Those who have money prefer to keep it, and cannot be
persuaded to mreat it in the best securities. Exchange
buyers have virtually retired from the market. Some
very good sterling was referred at 100, but found no takers.
We did not bear of any sale of frames. Sight can be had
almost on the first offer. A little was sold at I discount
and at the close some A I chicks were offered at 13,
electuary.

It is tagless to quote from any of the money articles of

the papers, as they have ceased to report the true condi-tion of things, and are filled with lies and abuse of the South. We venture to say that in the whole town of New York not \$5,000 of Louisiana currency can be found. We saw a latter of the 17th, in which the writer says that he made a good job that day by buying \$400 New Orleans bank notes at 1½ discount. So much for the ve-racity of the Heraid. In return, we will simply state that New York bank notes are looked upon here as next to worthices.

Will the Picayune oblige us by publishing the list of takers of the Confederate loan?

The Cincinnati Gazette of Friday night says:-The market for Eastern exchange was steady at pre-The market for fastern exchange was steady at previous quotations. For Oblo and Indiana currency the rates were 3, premium buying and 3, premium selling; and for Kentucky, 23, premium buying and 3 a 33, premium selling. The dealines were chiefly in the latter, people bolding on to the better currency. The volume of Kentucky notes is steadily diminishing, and at the rate at which it is being returned, the burden must soon be removed. Rankers are sending it bome as fast as possible. The demand for gold for Kentucky paper was brisk at 5 premium. For Ohlo and Indiana it was sold at 1 premium. Nothing done in New Orleans or Baltimore. The backers were to day notified by the express companies that they will not, bereafter, until further notice, carry money packages for points in the second States, for Baltimore, or any place in Virginia except Wheeling. This will interfere with the dealings in the bank notes of those States. Louisiana which advanced yesterday to 5 discount, bas sgain failen back to 10 discount. We make no change in other quotations; but it is difficult to effect rate, there being a general indisposition to invest in any description of uncurrent funds.
